

## Example of Possible Product specification

### FIBRON MF- and UF-Membranes

Synthetic hollow fiber membranes acc. Customer's specification

	Unit	Value	Tolerance
<b>Membrane</b>			
Type		MF- or UF-Membrane Asymmetric Symmetric, Integralsymmetric where possible and appropriate	
Name		FIBRON MF xxx or FIBRON UF yyy	
Material		Different Polymers FIBRON AG Spec. (PSu, PES, PA, PI & others)	
Wall thickness	µm	40-80	
Inner diameter	µm	200-400	
MF-Porediameter	µm	0,1 – 10,0	
UF-Porediameter	Dalton	5 – 500 x 10 <sup>3</sup>	

#### Hollow Fibers/Bundles

Acc. Customer requirements

Number of fibers		Acc. Customer	±100
Length (insert dialyser)	mm	Acc. Customer	±1
Diameter (incl. wrap)	mm	Acc. Customer	<sup>-2</sup> / <sub>+1</sub>
Wrap		PE-sheet	

#### Packaging

Bundles per package	Acc. Customer	
Packaging	non sterile, double – single welded – PE-bag in carton or acc. Customer requirements	

Lifetime of FIBRON AG products: 2 years under specified conditions.

Non-warranty clause: FIBRON AG and insurer of FIBRON AG disclaim liability for FIBRON AG products including dialyzers containing FIBRON AG products not single tested regarding integrity and put into the USA and Canada market.

FIBRON AG reserves the right to alter any parameter of the specification mentioned above at any time without prior notice.
